About Terry Hawkins:

With 25 years as a global business trainer, speaker and writer, Terry has built a powerful reputation as a remarkably entertaining, insightful and motivating presenter. Terry takes her audience on a journey that inspires them to take action now – right at this very second. Rather than just give a lot of “feel good” phrases, Terry proceeds to demonstrate how we can instantly start to change the effect we have on our own and others’ lives. Terry will show you how to use MIND LANGUAGE to produce desired outcomes and will inspire you to achieve greater communication and understanding with your peers and team.

Terry is Founder and Managing Director of People In Progress, and has written several books including “There are only two times in life, NOW & TOO LATE” and children’s series STICKMAN® RULES! Beginning with “Let’s DO Healthy”, “Let’s DO Happy” and “Let’s DO Love”.
